Reasons for this test (mark with X, please):

- Requested by workplace Requested by school Others
 Abroad travel in the last 30 days. Country: _____ Date of arrival: _____

Information

I, the undersigned, declare by signing this declaration

- I voluntarily provided my health and personal data to MikroMikoMed Kft, the healthcare provider. I consent to the processing of my data by the service provider;
- I have been informed that I am entitled to request information from the service provider at any time about the data management related to the examination and that the sampler and the data controller are obliged to keep the medical secrets known to them;
- I understand that the result is uploaded by the laboratory to the OSZIR system for the Hungarian National Center for Public Health (NKK) in accordance with the instructions issued by the National Chief Medical Officer;
- If the Hungarian TAJ identifier (social security code) is indicated, the find will be automatically uploaded to the EESZT system in accordance with our legal obligation.
- By default, the report is sent to the patient in an encrypted (PDF format) file to the specified e-mail address. The decryption code is the patient's TAJ ID. If no TAJ number is specified in the form, the result is sent without encryption. If different, check the options below:
 - I do NOT ask to encrypt the report (even if the TAJ number is specified)
 - I want to enter an encryption code other than TAJ number: _____
(up to 10 characters)

Budapest, 2021. _____. (month) _____. (day)
